FSA Appoints Jeff Bernthisel to Board of Directors

(Wayne, PA, February 10, 2016) ... The Fluid Sealing Association® is pleased to announce the appointment of Jeff Bernthisel to its Board of Directors. Mr. Bernthisel is currently Vice President of EGC Enterprises, Inc. of Chardon, Ohio, with additional responsibility for EGC's Research Development Engineering.

Mr. Bernthisel joined EGC Enterprises in 1999 as General Sales Manager to oversee the global sales and marketing effort for EGC's high temperature graphite fluid sealing and thermal systems products. He was promoted to Vice President in 2011. For most of his 35 year technical sales and marketing career, Mr. Bernthisel has been involved with sealing products, from MRO industrial distribution for seal, bearing and power transmission products, to PTFE internal hydraulic seals for automotive OEM applications to current day for EGC's engineered sealing solutions.

When not on the job, Mr. Bernthisel enjoys all variety of sports, and loves to compete. He is a graduate of University of Toledo with a BS in Marketing and Management. He lives with his wife Sharon, and they have 3 grown daughters and 2 beautiful grandchildren.

"We are excited to be able to add Jeff as a member to our Board of Directors," said Mike Shorts, FSA President. "His extensive industry knowledge and great leadership capabilities will add to our existing bench strength and I am very much looking forward to seeing his positive impact on the association."

Mr. Bernthisel is a long standing member of the FSA. He currently serves as Chair for the Compression Packing Division and has been active in the FSA since 2011.

*Founded in 1933, the **FLUID SEALING ASSOCIATION®** (FSA) is an international trade association. Member companies are involved in the production and marketing of a wide range of fluid sealing devices primarily targeted to the industrial market. FSA membership includes companies in Europe and Central and South America, but is most heavily concentrated in North America. FSA members account for a majority of the manufacturing capacity for fluid sealing devices in the Americas market. Follow us at www.fluidsealing.com | @fluidsealing*
